VIACOR - way of the heart

VIACOR (lat.) – „**Way of the heart**“ is our guiding star! The fundamental basis of all life!

Therefore we work with and for people. VIACOR represents „**protecting values**“ – „**We protect values**“.

For over 20 years, we develop, manufacture and sell jointless floor coatings.

VIACOR is THE creative workshop & synthetic resin manufactory for innovation, performance and efficiency in superiour solutions for floorings.

Made in Germany and delivered to the entire world, in all climate zones – „The World is not enough“.

The reason is because we permanently grow with each task to make a contribution - in and for one world we want to live at and enjoy!

Innovation makes the difference

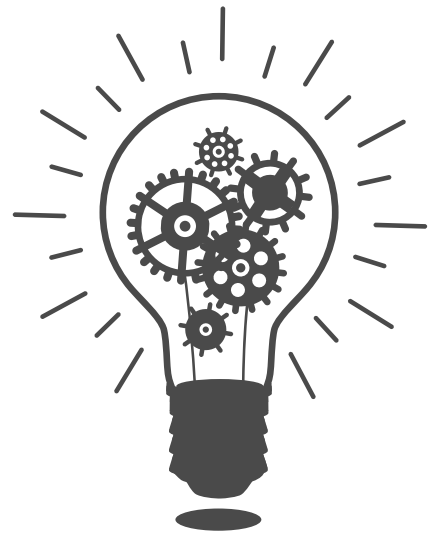

***“Innovation is the difference
between being a leader and a
follower.”***

(Quote from Steve Jobs)

It is vital to the development of
our company that we are inno-
vators in the following areas:

- The future-proofing of our products
- Protection of the environment
- Health and Safety
- Sustainability

You have to keep moving if you
want to achieve something!

Our Portfolio is complete

We have suitable coatings for all applications:

VIASOL **SYSTEMS** – industrial and commercial flooring

VIASOL **DECK** – modern car park flooring

VIACRETE **SYSTEMS** – polyurethane cement flooring (HACCP certified)

VIASEAL **SPRAY COATS** – waterproofing systems

VIASAN **SYSTEMS** – high quality concrete restoration

PORPLASTIC **SPORTS COATINGS** – indoors and outdoors

Test reports and certification in accordance with TÜV, DIN EN ISO, CE, AgBB, RiLi, HACCP, GLS etc. are available.

Overview

Flooring systems

Showrooms & Foyers

Floor coatings for representative and durable areas

Offices, Schools & Kindergartens

Elastic floor coating systems with noise-reduction and walking comfort

Car Parks & Parking Areas

Surface protection for ramps, spiral ramps, exposed and intermediate decks

Hospitals & Medical Practises

Operating theater or waiting room - suitable flooring systems for every requirement

Overview

Flooring systems

Productions & Warehouses

High impact and durable flooring systems for production halls and logistics

Kitchens & Catering

Hygienic and seamless flooring systems with slip resistant profile

Laboratories & Wet Rooms

Anti-skid and chemically resistant flooring systems

WHG

Highly chemical resistant epoxy-based flooring systems

Overview Flooring Systems

ESD

Conductive floor coatings for ESD protected areas

Food & Beverage

Extremely robust flooring systems for foods industry (HACCP certified)

Waterproofing Spray Coats

VIASEAL machine applied waterproofing membranes for Car Parks, tunnels, pools and much more

Building Protection

VIASAN - proven and economical maintenance for concrete parts and poles

Overview Sports Systems

RACE

Athletic tracks and multipurpose fields for championships and school sports

INDOOR

Elastic flooring systems for indoor and multi-purpose sports halls

TENNIS

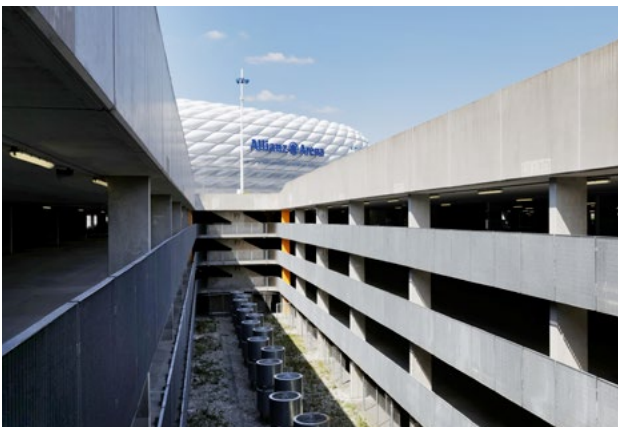

Claycourts and hardcourts for indoor and outdoor tennis courts

FUN

Elastic fall protection and playground systems for critical fall heights

References are recommendations

The four-storey Arena car park has 9,800 car parking spaces and is the largest car park in Europe
Allianz Arena, Munich

This sophisticated floor coating gave the shop a special ambience with its own logo
Delicatessen, Rutesheim

Tennis being played on the POR-PLASTIC **RedClay pro** at the ladies' elite WTA tournament in Stuttgart
Porsche Tennis Grand Prix

A hospital with many different types of rooms, which had required the highest quality specification
Privat Clinic, Banja Luka

References are recommendations

Visually the flooring is very modest, but this makes for attractive and homogenous surfaces
Europa Experience, Berlin

A durable coating is applied on a 9,500 m² surface area in the electronics' sector:
H&B Electronics, Deckenfronn

Indoor sports' flooring for sports' clubs, schools and in the professional sector
The University of Malta

Accessible sealing systems which are resistant to chemicals such as oils, petrol, diesel and de-icing salt
Car wash, Esslingen

Testing ensures future-proofing

As we are operating on a global stage, we have certified our products. Investors from across the world buy German goods and know the standards which apply, and these are vital in keeping the value and quality of the products.

Many of the VIACOR products are certified with the **TÜV PRO-FiCERT-product Interior Premium** mark and are covered by the following standards:

- AgBB
- Belgian VOC-regulation
- BREEAM Exemplary Level
- Finnish M1 classification
- French VOC-regulation
- Green Label Singapore
- ISEGA
- LEED v4 (outside North America)

These are all tests and certifications in the areas of environmental protection and health. Products fulfilling these requirements, are labelled with our **GREEN LINE ECO** symbol. In addition, we also hold many other **certificates and standards**.

Moreover, our VIACRETE systems are **HACCP International** certified which is safe to use in food and beverage areas where antimicrobial is concerned.

For our **Sports Systems** we are additionally certified for:

- BWF
- IHF
- ITF
- World Athletics (former IAAF)

ISO Quality Management

VIACOR products are produced within the scope of our environmental management system on ecological and economic points of view and fulfill high demands for hygiene and industrial safety. VIACOR has introduced and effectively applied an environmental quality management system according to **ISO 9001:2015** and **ISO 14001:2015** as well as an energy management system according to **ISO 50001:2018**.

Know How and Experience

Since being formed in 2000, there are more than 80 million m² installations of industrial floor coatings and more than 50 million m² of sport flooring surfaces worldwide.

Internally and externally we carry out the strictest quality control testing and this guarantees a consistent high quality. Long-term relationships and a qualified workforce, both in Germany and internationally, have proved to be invaluable. The combination of technical knowledge and practical construction-site experience has allowed us to continuously keep developing our products and be able to adjust to the ever-changing demands of the market.

VIACOR's own product development and production are the best guarantee for modern, cost-effective, durable and environmentally-friendly flooring coating systems.
