BECAUSE HORSES DESERVE ONLY THE BEST

VIASPORTS *EQUI* & VIASPORTS *EQUI comfort*

Easy-care flooring systems for demanding equestrian areas

Horse stables | Wash bays | Riding areas | Horse walkers | Veterinary clinics

SEAMLESS | **EASY TO CLEAN** | **ABRASION-RESISTANT** | **WATERPROOF**

DESIGNED TO SUPPORT ANIMAL WELFARE

VIASPORTS ***EQUI*** combines comfort, hygiene and durability in a high-performance flooring system for modern equestrian facilities. The slip-resistant surface supports the horses' well-being, while the water-repellent coating reduces odour formation and makes cleaning easier.
Different system variants ensure that the solution can be optimally adapted to the respective requirements.

BENEFITS AT A GLANCE

01 HYGIENIC

Liquids do not penetrate the seamless flooring, reducing odour formation and dirt deposits. This ensures a clean environment and less cleaning effort.

02 SLIP-RESISTANT

The elastic surface protects the joints and provides a high level of walking comfort. Thanks to its slip-resistant properties, it also offers enhanced safety in wet areas.

03 DURABLE

Unlike conventional solutions, VIASPORTS ***EQUI*** is designed for long-term use. This reduces maintenance requirements and permanently lowers operating costs.
